ACRONYMS, UNITS, and CHEMICAL NOMENCLATURE

AIRS	Aerometric Information Retrieval System
DEQ	Idaho Department of Environmental Quality
EPA	U.S. Environmental Protection Agency
IDAPA	a numbering designation for all administrative rules in Idaho promulgated in accordance with the Idaho Administrative Procedures Act
Sinclair	Sinclair Transportation Company

PUBLIC COMMENT / AFFECTED STATES / EPA REVIEW SUMMARY

In accordance with IDAPA 58.01.01.381.02.c of the Rules for the Control of Air Pollution in Idaho, no notice to the public or affected states is required for an administrative permit amendment

In accordance with IDAPA 58.01.01.381.02.c, DEQ will submit a copy of the revised permit to the EPA.

1. PURPOSE

The purpose of this memorandum is to explain the legal and factual basis for this Tier I operating permit administrative amendment in accordance with IDAPA 58.01.01.362 of the Rules for the Control of Air Pollution in Idaho.

2. SUMMARY OF EVENTS

On January 17, 2006, DEQ received a submittal from Sinclair requesting an administrative amendment to Tier I Operating Permit No. 030413, dated January 13, 2004. The submittal included an explanation of the ownership change, an effective date, and a change in person to contact and responsible official.

3. REGULATORY ANALYSIS

IDAPA 58.01.01.381

ADMINISTRATIVE PERMIT AMENDMENTS

This permitting action is occurring in accordance with the administrative permit amendments procedure. This permitting action falls under two criteria: (b) change in name and phone number of person to contact and responsible official and (d) change in ownership.

This analysis does not address technical or regulatory aspects of the original permit conditions developed for the Tier I Operating Permit No. 031-00026, dated July 4, 2002; those aspects are addressed in the technical memorandum for that permit. It should also be noted that, as a result of this permit modification, minor numbering and format changes have been made to the revised permit; however, these changes are inconsequential and are not specifically addressed in this analysis.

4. FEES

Sinclair's Burley facility is a major facility as defined by IDAPA 58.01.01.008.10; therefore, registration and registration fees apply in accordance with IDAPA 58.01.01.387. This Tier I modification project is subject to the provisions of IDAPA 58.01.01.389.06.b.

5. RECOMMENDATIONS

Based on the Tier I application and review of state rules and federal regulations, staff recommends that DEQ issue amended Tier I Operating Permit No. T1-060402 to Sinclair for their Burley facility as required by IDAPA 58.01.01.381.
